## PROFESSIONAL SUMMARY

Proactive Data Engineer with hands-on experience in building and managing scalable data pipelines and cloud-based systems. Skilled in Python, SQL, and ETL processes, with a strong focus on transforming data into actionable insights that support business decision-making. Currently expanding expertise in cloud platforms and modern data architectures to deliver efficient and reliable data solutions.

Bringing over three years of experience in Software Quality Assurance and a solid foundation in full-stack development (React, Node.js, MySQL, PostgreSQL), I offer a unique perspective on system reliability, data quality, and end-to-end application performance. Experienced in both manual and automated testing, I am adept at identifying issues early, improving data and system integrity, and collaborating effectively within cross-functional teams.

---

## PROFESSIONAL SKILLS

- Programming Languages: Python, SQL, Java, JavaScript
  - Big Data Technologies: Apache Hadoop, Apache Spark, Apache Kafka
  - Cloud Platforms: Amazon Web Services (AWS), Google Cloud Platform (GCP), Microsoft Azure
  - DevOps: Terraform, Jenkins, GitHub Actions, Ansible, Docker, Kubernetes, CI/CD
  - Database Management Systems: MySQL, PostgreSQL, MySQL Server
  - Data Warehousing: Amazon Redshift, Google BigQuery
  - ETL Tools: Apache Airflow
  - Data Visualization: Power BI, EXCEL
- 

## WORK EXPERIENCE

### Data Engineer Consultant | AMADARI | January 2026 - Present

- Developed data pipelines, reducing processing time by 30% and enabling faster decision-making.
- Led a team to deliver a real-time analytics solution, increasing client satisfaction scores by 20%.
- Optimized storage usage using data warehousing techniques, saving £10,000 per quarter.
- Implemented performance tuning strategies that reduced database query latency by 40%, improving system responsiveness and user experience.
- Collaborated with cross-functional teams to deliver 10 data projects on time and within budget, receiving positive feedback from clients and senior management.

### **Software QA Engineer | Tutors Finland Oy | August 2024 – November 2025**

- Spearheaded a shift from manual to automated testing by developing Python test suites and Robot Framework pipelines, increasing test coverage and reducing regression cycle time by 70%.
- Integrated automated tests into CI/CD pipelines and ran database integration tests against PostgreSQL and MySQL staging instances to catch schema and query regressions earlier in the release cycle.
- Collaborated with backend engineers on data modelling and schema migrations to ensure compatibility with OLTP workloads and downstream analytical pipelines.

### **Software QA Engineer | Autoflow | January 2022 – July 2024**

- Built automated end-to-end and integration tests in Python and Robot Framework and integrated them into CI/CD, cutting manual testing effort and increasing deployment confidence.
- Implemented ETL and data-validation checks as part of release pipelines, using SQL and Python to validate large datasets and surface schema drift before production releases.
- Worked with developers to optimise PostgreSQL queries and introduced partitioning and indexing strategies that reduced reporting query times by up to 35%.

### **Software Test Engineer | INITS Limited | September 2020 – December 2021**

- Executed manual and automated test suites for web and mobile applications, reporting defects and validating fixes to improve application stability across environments.
- Assisted in data migration and compatibility testing by writing SQL queries and verifying data integrity across MySQL/PostgreSQL instances during release cycles.
- Improved application stability by executing manual test cases for web and mobile applications, accurately reporting defects, and performing compatibility testing.

---

## **EDUCATION**

*(May 2025)*

*INFORMATION AND COMMUNICATIONS TECHNOLOGY*

*Business College Helsinki*

*(December 2022)*

*CERTIFIED TESTER, FOUNDATION LEVEL (CTFL) - ISTQB*

*Association for Testing and Software Quality Assurance (ATSQA) - USA*

*(September 2015)*

*MASTER OF SCIENCE IN ECONOMICS AND BUSINESS ADMINISTRATION - FINANCE*

*Oulu Business School, University of Oulu*
